NO.	CAR INFO.	RUBBER KITS
6	4FA1	 A collection of various rubber seals and O-rings for the 4FA1 engine. The kit includes a large rectangular gasket, several circular O-rings of different diameters, a small black semi-circular seal, and a pair of small black rings.
7	4HF1	 A collection of various rubber seals and O-rings for the 4HF1 engine. The kit includes a large oval-shaped gasket, a large circular O-ring, a smaller circular O-ring, several small circular O-rings, and a curved black seal.
8	4JG2	 A collection of two curved black rubber seals for the 4JG2 engine.
9	4JH1	 A collection of various rubber seals and O-rings for the 4JH1 engine. The kit includes a large circular O-ring, three small black O-rings, and two pairs of small black rings.

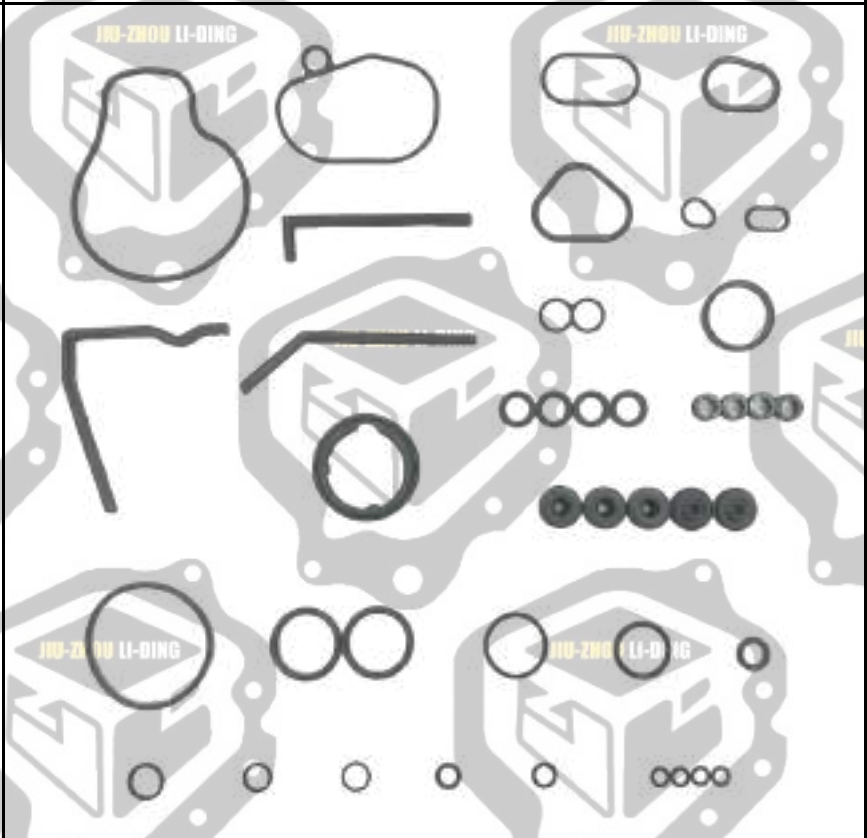

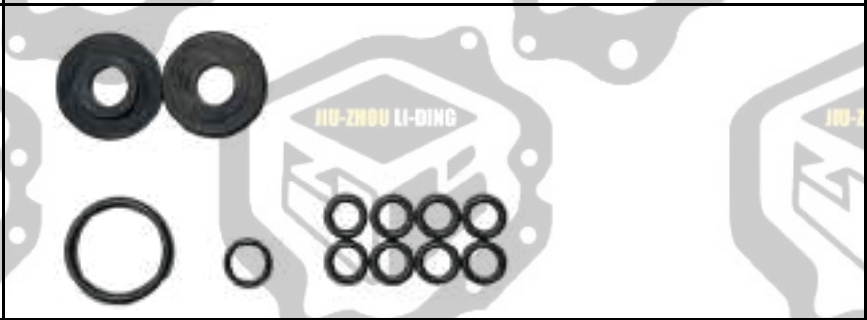

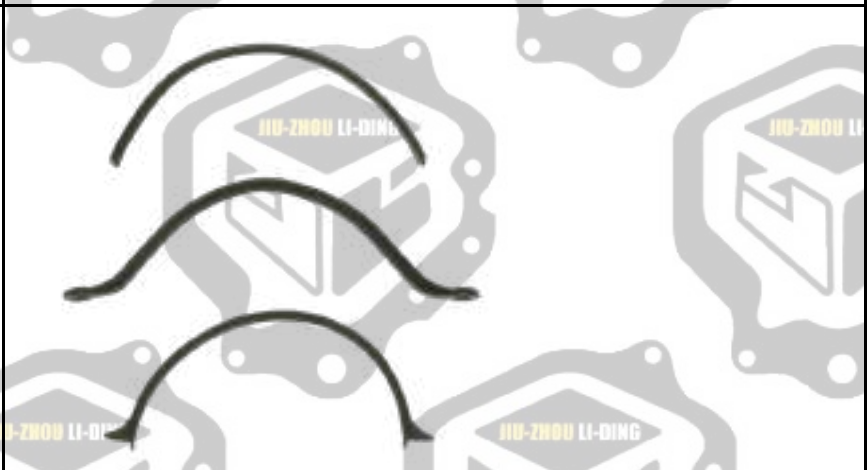

NO.	CAR INFO.	RUBBER KITS
10	4JJ1	 <p>This kit includes two sets of semi-circular gaskets, one large circular gasket, one medium circular gasket, one small circular gasket, two sets of O-rings, and a set of four small O-rings.</p>
11	4JJ1	 <p>This kit includes two sets of semi-circular gaskets, one large circular gasket, one medium circular gasket, one small circular gasket, two sets of O-rings, and a set of four small O-rings.</p>
12	4JJ1	 <p>This kit includes two large semi-circular gaskets, two sets of O-rings, one large circular gasket highlighted in red, one small circular gasket, and a set of eight small O-rings.</p>

NO.	CAR INFO.	RUBBER KITS
21	10PD1	 A collection of various rubber seals and O-rings for the Isuzu 10PD1. It includes two large black O-rings, a 4x4 grid of 16 small black O-rings, a 2x4 grid of 8 white O-rings, a 2x4 grid of 8 red O-rings, and a row of 6 small black O-rings.
22	C190	 A collection of various rubber seals and O-rings for the Isuzu C190. It includes two large black O-rings, a 2x2 grid of 4 black O-rings, a 2x2 grid of 4 white O-rings, a 2x2 grid of 4 small black O-rings, a 2x2 grid of 4 small white O-rings, a 2x2 grid of 4 small black O-rings, a 2x2 grid of 4 small white O-rings, and a 2x2 grid of 4 small black O-rings.
23	C223	 A collection of various rubber seals and O-rings for the Isuzu C223. It includes two large black O-rings, a 2x2 grid of 4 black O-rings, a 2x2 grid of 4 white O-rings, a 2x2 grid of 4 small black O-rings, and a 2x2 grid of 4 small white O-rings.

NO.	CAR INFO.	RUBBER KITS
24	C223	 <p>The rubber kit for the Isuzu C223 includes two large black semi-circular O-rings, a red circular O-ring, a 2x3 grid of six small black O-rings, a horizontal row of four small black O-rings, two dark grey circular components, a pair of small black O-rings, two medium-sized black circular O-rings, and a 2x2 grid of four small black O-rings.</p>
25	C240	 <p>The rubber kit for the Isuzu C240 includes two large black semi-circular O-rings, a red circular O-ring, a single black circular O-ring, a horizontal row of four small black O-rings, two medium-sized black circular O-rings, and a 2x2 grid of four small black O-rings.</p>
26	DA120.DA220	 <p>The rubber kit for the Isuzu DA120/DA220 includes a large black circular O-ring, a medium-sized black circular O-ring, a 2x2 grid of four small black O-rings, a horizontal row of five small black O-rings, and a horizontal row of four small black O-rings.</p>

NO.	CAR INFO.	RUBBER KITS
27	F22B	 <p>A collection of various rubber seals and gaskets for the Isuzu F22B. The kit includes several large, irregularly shaped gaskets, likely for the engine block and cylinder head. It also contains numerous O-rings of different sizes, smaller circular seals, and a few L-shaped or T-shaped seals. The components are arranged in a grid-like fashion for clarity.</p>
28	G161	 <p>A set of rubber seals for the Isuzu G161. The kit features two large O-rings at the top, a single large O-ring below them, and a cluster of eight smaller O-rings arranged in two rows of four. There are also a few very small circular seals scattered throughout the set.</p>
29	G200Z	 <p>Rubber seals for the Isuzu G200Z. The kit includes two semi-circular gaskets, one large and one small. It also contains four O-rings arranged in a 2x2 square, and two additional circular seals of different sizes.</p>
30	OIL PAN 4JG2	 <p>Rubber seals for the Isuzu Oil Pan 4JG2. The kit consists of three large, curved gaskets designed to fit the shape of an oil pan. Each gasket has a distinct curved profile to ensure a proper seal.</p>
